Deepak Jadhav

AI/ML Engineer | Generative AI | LLM Systems | MLOps
+91-8668542235 | deepak.s.jadhav07@gmail.com
github.com/DeepxkJadhav | LinkedIn

Summary

AI/ML Engineering student specializing in Generative AI, Large Language Models, autonomous AI agents, machine learning systems, and scalable AI deployment.

Experienced in building AI solutions using Python, PyTorch, TensorFlow, FastAPI, Docker, Kubernetes, vector databases, and cloud technologies.

Technical Skills

- **Languages:** Python, TypeScript, JavaScript, SQL
- **Machine Learning:** Scikit-learn, XGBoost, Feature Engineering, Model Optimization, Anomaly Detection
- **Deep Learning:** PyTorch, TensorFlow, CNN, RNN, LSTM, Transformers
- **Generative AI:** LLMs, RAG, Hugging Face, Prompt Engineering, Multi-Agent Systems
- **MLOps:** FastAPI, Docker, Kubernetes, Redis, CI/CD, GitHub Actions
- **Databases/Cloud:** AWS, PostgreSQL, MongoDB, FAISS, pgvector, Qdrant

AI Engineering Projects

Sentient-UI — Autonomous Multi-Agent AI Operating System
Python, FastAPI, Next.js, Docker, Kubernetes, Vector Databases

- Built autonomous AI agent platform with specialized agents for coding, security, ML and DevOps workflows.
- Implemented multi-LLM routing using OpenAI, Claude, Gemini and local models.
- Designed vector memory system using pgvector and Qdrant for persistent AI context retrieval.
- Created scalable deployment pipeline using Docker, Kubernetes, Redis and monitoring tools.

GhostVision — AI Cyber Threat Intelligence Platform
Python, TensorFlow, XGBoost, FastAPI, MongoDB

- Developed AI cybersecurity platform using machine learning based anomaly detection.
- Created ensemble ML pipeline with Scikit-learn, XGBoost and neural networks.
- Integrated MITRE ATT&CK and VirusTotal APIs for threat intelligence enrichment.

VoxTrace — Multimodal Audio Intelligence Pipeline
Whisper, Hugging Face, FAISS, RAG, FastAPI

- Built speech intelligence pipeline using Whisper and transformer-based language models.
- Implemented RAG architecture with FAISS semantic retrieval system.

Certifications

- AWS Certified Cloud Practitioner
- IBM AI Engineering Professional Certificate

Education

Parul University
B.Tech Computer Science Engineering — Artificial Intelligence Specialization

Languages

English | Hindi | Japanese (Basic)
